Sangat

Sanjhi Soch, Sunehra Kal

BRAND GUIDELINES · VERSION 3.0 · OCTOBER 2026

Premium basmati rice · in partnership with Manav Vikas Sansthan

Sangat: in good company.

Premium basmati made in partnership with Manav Vikas Sansthan (MVS) and the farming families who grow it. The brand makes togetherness visible, warmly and without sounding like a charity.

PROPOSITION

Exceptional basmati you can feel good about, because the people behind it are in it together.

PURPOSE

To bring the people who eat rice closer to the people and practices that grow it.

PERSONALITY

Warm, authentic, assured, quietly proud. A good host, not a salesperson.

VALUES

Togetherness (sangat) · Care in the field · Craft · Honesty: we say only what we can stand behind.

AUDIENCE

Affluent urban Indian households, premium grocery and gourmet shoppers.

ON THE SHELF

The category shouts in maroon, red and yellow with monuments and crowns. Sangat is ivory and forest green with one golden ear and a drawn landscape: calm, premium and rooted.

THE NAME AND THE LINE

Sangat (संगत): company, keeping good company. **Sanjhi**: shared. **Sunehra**: golden. **Kal**: tomorrow.

Sanjhi Soch, Sunehra Kal
साँझी सोच, सुनहरा कल

BRAND LINES

Every grain has a story · A shared journey for a brighter tomorrow · Good food grows from shared thinking.

A golden ear grows out of the shared word.

The wordmark from the client's brand board, vectorised from it exactly: customised Playfair letters, a single-storey g whose swash runs back under 'San' (the shared path), and a gold rice ear growing out of the g (the golden tomorrow).

PARTS

1 · Letters: traced from the board (customised Playfair), Forest Green.

2 · The swash g: its descender sweeps left under the whole word.

3 · The ear: two gold blades and a curling tongue, shaded light to deep gold as on the board; flat Sunehra Gold or one colour where gradients cannot print.

4 · Tagline: Libre Caslon Text set at the board's letter positions, Earth Brown.

FIDELITY

The colour master overlaps the board's own logo by 0.89 IoU (the rest is edge anti-aliasing). Never retype the logo; use the supplied files.

One family of marks.

Primary (with tagline) wherever there is room; horizontal with the symbol for headers and narrow bands; stacked for square spaces; the symbol alone for icons, the pack tab and avatars.

PRIMARY

HORIZONTAL

STACKED

WORDMARK

SYMBOL: TWO LEAVES AND THE EAR

SYMBOL REVERSED

Tested from 16 px to the shelf.

Colour on Ivory, reversed on Forest Green, and one-colour cuts (black, white, forest, gold foil) in which the ear, leaves and stem are separated by small gaps so nothing fuses. Every version ships as SVG and transparent PNG.

Give it room.

Clear space on every side: x, the height of the lowercase a. Minimum sizes: wordmark 25 mm wide in print and 32 px high on screen; below that, use the symbol (16 px with the favicon tile).

× STRETCHED

× RECOLOURED

× EAR REMOVED

× EFFECTS

× BUSY GROUND

× LOW CONTRAST

Forest, ivory and a golden ear.

Six brand colours from the board plus four support tones. CMYK values are uncalibrated starting builds; the printer matches Pantone from drawdowns. Measured contrast: Ivory on Forest 11.3:1, Gold on Forest 5.4:1, Earth Brown (UI) on Ivory 5.5:1; Gold on Ivory is 2.1:1, so it is never small text on light grounds.

	COLOUR	HEX	RGB	CMYK START	SHARE	USE
	Forest Green Primary	#0F3D2E	15 61 46	75 0 25 76	35%	Logo, headings, pack tab, back panel, the sweep, buttons
	Ivory Background	#F9F6EE	249 246 238	0 1 4 2	40%	Page and pack ground, cards on forest
	Sunehra Gold Accent	#C9A96B	201 169 107	0 16 47 21	8%	The rice ear, foil, rules, gold text on forest; never small text on ivory
	Earth Brown Secondary	#8B6F47	139 111 71	0 20 49 45	5%	Tagline and large labels on ivory, roofs and soil in illustration
	Sage Green Secondary	#A7B89F	167 184 159	9 0 14 28	7%	Second leaf of the symbol, hills, quiet text on forest
	Stone Neutral	#D9D4C8	217 212 200	0 2 8 15	5%	Rules, borders, secondary surfaces

	Gold Light Support	#E2CB97	226 203 151	0 10 33 11	-	Highlights in the ear, italic headlines on forest
	Earth Brown (UI) Support	#7A5F3B	122 95 59	0 22 52 52	-	Earth Brown for small text on ivory (4.5:1 needs this tone)
	Ink Text	#13231C	19 35 28	46 0 20 86	-	Body text on ivory

As on the board: Playfair Display, with Inter.

Primary: Playfair Display (the logo is customised Playfair) for display headlines. Secondary: Inter for reading and every panel of information. The board sets its tagline and pack lines in a calmer serif, matched by measurement to Libre Caslon Text. Hindi: Noto Serif Devanagari. All SIL OFL.

A landscape, a sweep and golden ears.

As on the board, drawn flat in the brand colours: misty mountains, a big tree, one farmhouse, terraced fields; the forest sweep with its fine gold edge and the leaf-shaped rice window; arching gold rice ears; etched ears at the corners; four line icons on a 24 grid.

LOCAL FARMERS

SUSTAINABLE PRACTICES

THRIVING COMMUNITIES

A BRIGHTER TOMORROW

RULES

The landscape always sits at the bottom of a surface; the sweep rises left to right; ears bow to the right; one farmhouse, never a crowd. No outlines, no gradients in print artwork, no stock imagery.

The board, made print-ready in structure.

Back · front · base gusset, laid out to the board. The back ends in the QR strip; nutrition and legal text sit on the base gusset. Magenta: assumed trim, top seal and zip; blue: safe area. Every regulatory item is a labelled placeholder.

Side · front · side · back.

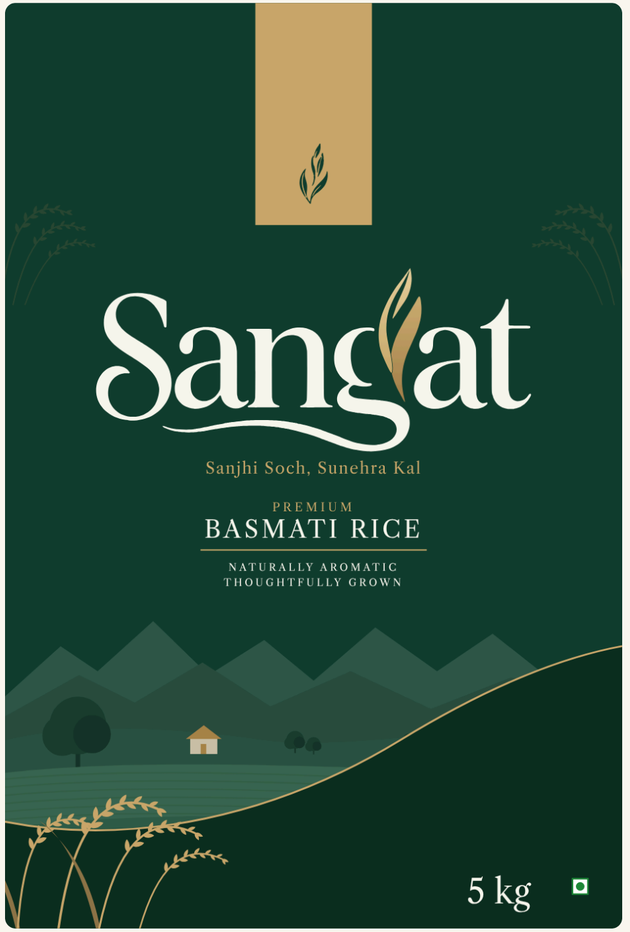

One side carries 'Good food grows from shared thinking.' as on the board, the other the nutrition and legal panel; the handle die-cut runs through the tab; nothing important sits above 52 mm.

The same story at dusk.

Forest ground, gold tab, the landscape in deep greens, no window: for gifting, festive packs or the 5 kg.

Every grain has a story.

The client's strip runs the full width of the bottom of every back panel, set in the brand fonts: the Hindi line, the headline, the gold sprig, the SCAN TO EXPLORE card and the footer bar. The QR opens story.html (placeholder until the URL is final).

Premium. Authentic. A better tomorrow.

Visualised from the print artwork (not photographs or proofs): the 1 kg and 5 kg on the table, the range and the finishes.

PACKAGING · FINISHES

Thoughtful textures.

1. **Matte paper-touch laminate**
   Ivory ground with a fine paper grain, as on the board: warm, not glossy.
2. **Hot-foil gold**
   The rice ear in the logo, the fine rules and the panicles.
3. **Clear window**
   The rice itself, framed by a gold foil edge along the sweep.
4. **Embossed wordmark**
   Sangat raised on the 5 kg front; blind emboss of the symbol on the tab.
5. **Spot matte on forest**
   The forest sweep and tab in a deeper matte than the ivory.

Calm in a loud aisle.

Among the category's common colours (unbranded blocks, not real products), ivory and forest with one gold ear stand apart.

Shelf test, visualisation only. Other packs are unbranded colour blocks in the category's common colours, not real products.

The identity, carried by the 3D grain.

Header wordmark at 50 px, Playfair Display, Libre Caslon Text and Inter self-hosted, the brand tokens in site.css, and the 3D pack wearing the V1 1 kg front.

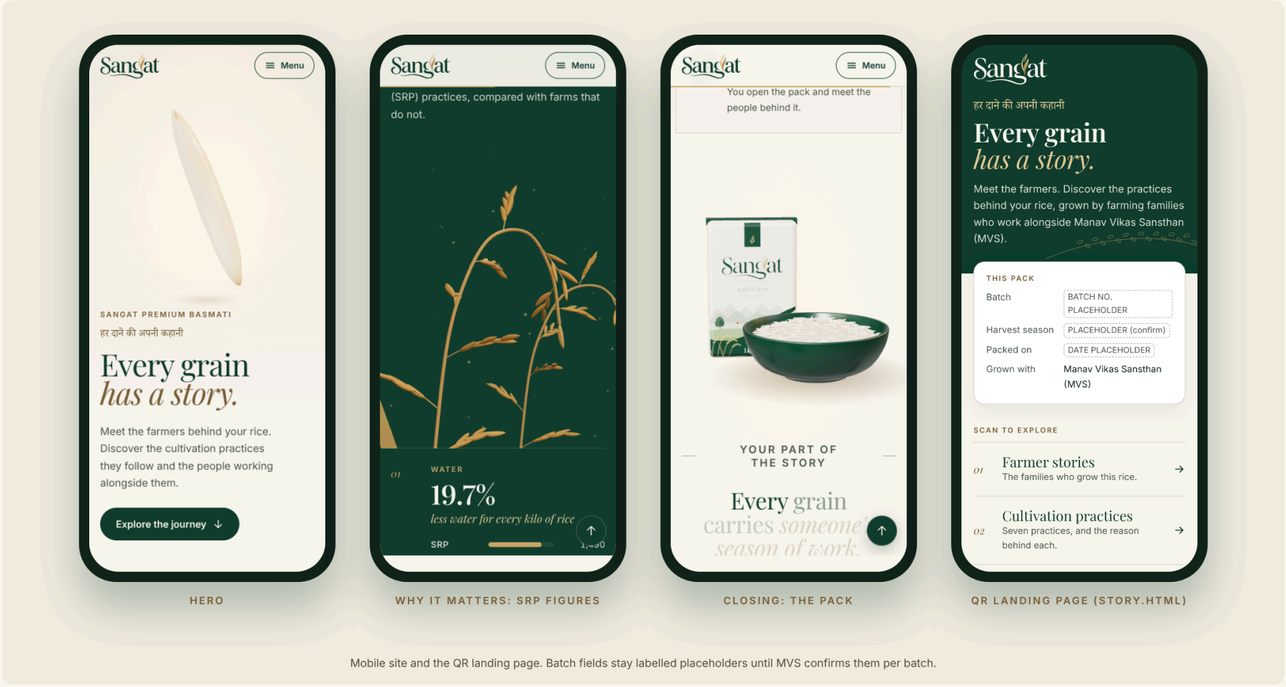

Website, desktop: the Sangat wordmark in the header, Playfair Display, Libre Caslon Text and Inter, the SRP figures in "Why it matters" and the 3D pack wearing the V1 front. Real screenshots of the built site.

Numbers a buyer can feel.

Four reasons, one figure each, from MVS's SRP vs non-SRP comparison: water, crop protection, fertiliser and the farmer's income. Each card shows the figure, an SRP vs non-SRP bar pair and one line of context. No tables: only what a buyer will read.

REASON · FIGURE ON THE SITE	SRP	NON-SRP
Water 19.7% less water for every kilo of rice	**1,490 L**	1,855 L
Crop protection 36.8% less insecticide	**96 ml-g**	152 ml-g
Fertiliser 21.8% less nitrogen for every kilo of rice	**27.4 g**	35.0 g
Livelihoods ₹5,323 more net return per acre	**₹60,130**	₹54,807

Mobile site and the QR landing page. Batch fields stay labelled placeholders until MVS confirms them per batch.

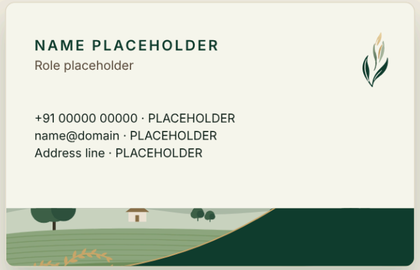

Basis (from the MVS document): milled rice at 67% recovery (FCI out-turn ratio); water = irrigations × 5 cm × 1 acre (2,02,343 L per irrigation). The site credits the source in one line; soil has no figure in the document, so it is not shown.

Two inks and a little gold.

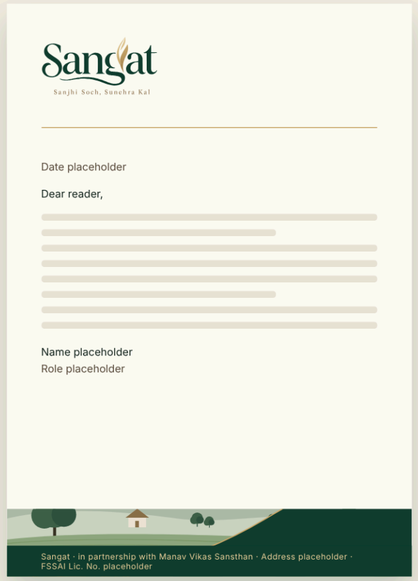

Business card, letterhead and compliments slip; names and details are placeholders.

BUSINESS CARD · FRONT (85 × 55 MM)

BACK · DETAILS ARE PLACEHOLDERS

LETTERHEAD · A4

COMPLIMENTS SLIP · DL

Print: Forest Green and Sunehra Gold as spot colours or hot-foil gold on the card front; uncoated 350 gsm card, 100 gsm letterhead.

Recognisable in any single ink.

Post, impact post (with its source line), story and avatars; the mark in black, white, ivory on forest, forest only, gold foil, blind emboss and as a sack stamp.

What is real, and what is still a placeholder.

The identity is complete as design. These items need MVS, suppliers or regulators before production.

CONFIRM WITH MVS

- Every product fact and pack line ("naturally aromatic", "thoughtfully grown")
- The SRP comparison's season, location and number of farms, before the figures go live
- Batch data for the QR page
- Farmer names, photographs and quotes, only with consent; the back-panel farmer is an illustration

SUPPLIERS AND REGULATORS

- Converter dielines for 1 kg and 5 kg (sizes here are assumed)
- FSSAI labelling review: veg mark, licence, MRP, net quantity, nutrition, type sizes
- GS1 barcode; the QR code from the final story.html URL
- Pantone drawdowns; foil, emboss and window proofs

PROTECT THE BRAND

- Trademark search and filing for SANGAT and the mark (not done here)
- Photography to system/photography.md
- Fonts: Playfair Display, Inter, Noto Serif Devanagari, SIL OFL 1.1: free for print, web and the outlined logo
