Idea

WHERE IT SITS

FEELS

assured · rooted · calm

THE IDEA

The Devanagari headline that joins letters into one word: a gold line holds three grains in the mark, gives the inscriptional capitals their hanging rule, and is the only gold in a forest-and-ivory palette.

ONE LOUD THING

The gold joining line: the single bright element in mark, layout and pack.

WHERE IT DIFFERS

Category marks are crests, monuments and leaves on maroon or kraft; this is a script-derived abstract mark in deep forest with one line of gold, no illustration.

THE MARK

One line joins three grains into a single word: shirorekha, panicle and toran at once.

Logo

The symbol + wordmark is the primary logo. Use it wherever the space allows; every other version is derived from it.

CLEAR SPACE

Keep at least x = 1 × the wordmark's cap height free on every side. (inferred from the drawing; confirm before print)

- Use the supplied files in kit/logo; never retype or redraw the wordmark.
- Scale proportionally, from the corner.
- The guide lines show the cap height and baseline the lockup is aligned on.

Logo

Pick the version by the space, not by taste. When the primary logo would render smaller than 20 px tall, switch to the symbol.

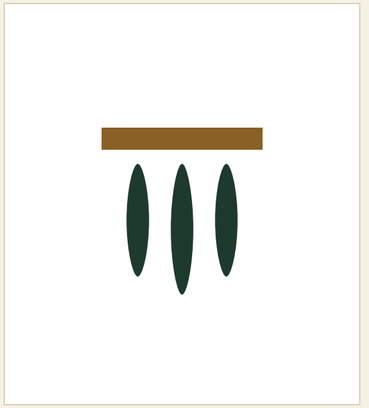

Primary

Horizontal lockup. The default for headers, documents and signage.

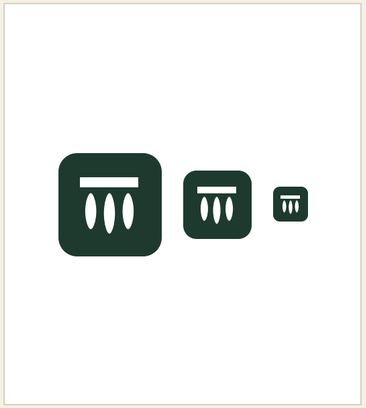

Stacked

For square and narrow spaces where the horizontal lockup gets too small.

Symbol

On its own only where the brand is already named nearby: avatars, app icons.

Favicon

The symbol on the primary colour at 48, 32 and 16 px.

Logo

Every logo part keeps at least 3:1 against its ground. Where the colours cannot, the logo switches to one colour.

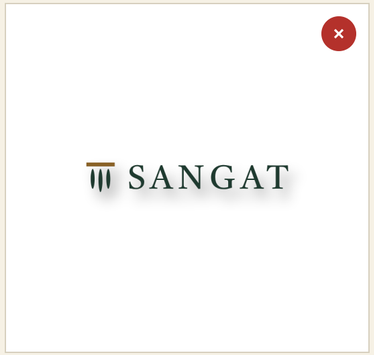

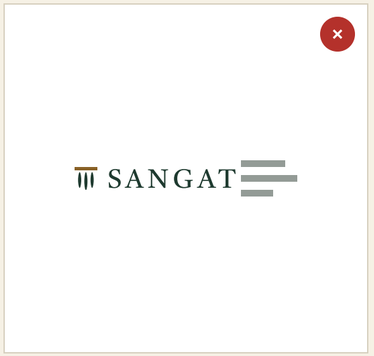

Don't stretch

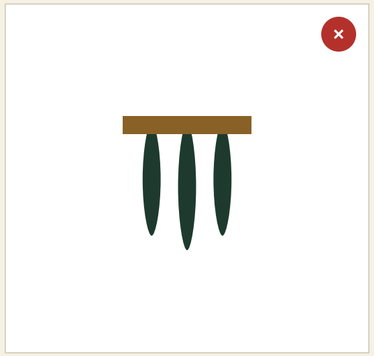

Don't recolour

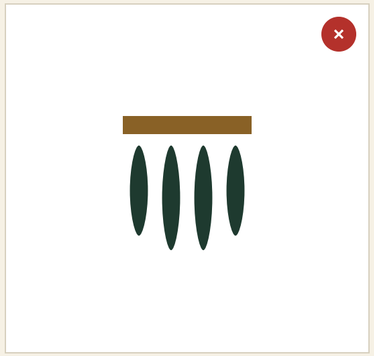

Don't add effects

Don't crowd the clear space

Do not join the grains to the line

Never add or remove grains: always three

Colours

Deep Sangat forest on warm ivory, one line of muted gold.

Band heights show how much of each colour a typical page uses. Large areas take the ground and primary; the accent stays small.

PRINT

Screen values are exact. For print, ask your printer for CMYK/Pantone matches made with their profile; the Lab D50 values are the reference to match against.

TINTS

80, 50 and 20% for charts and backgrounds only, never for text.

Icons

Placeholder icons, not drawn for this brand. Draw the brand's own set to the rules on the left.

- 24 px grid, 2 px padding, 1.75 px stroke.
- Round caps and joins; no fills except for a selected state.
- Icons take the ink or primary colour, never the accent.
- Sample set shown in the system style; draw new icons to match.

Imagery

Not defined in this kit: the panels show colour treatment only, and the rules are a starting point to replace with the brand's own.

- Real people, real places; natural light.
- Duotone in the primary and ink for backgrounds behind text.
- The accent appears in pictures only where it already exists in the scene.
- No stock clichés: no handshakes, no glowing orbs.

In good company.

Sangat is premium basmati made with Manav Vikas Sansthan and the farming families who grow it. The brand makes togetherness visible, without sounding like a charity.

PROPOSITION

Exceptional basmati you can feel good about, because the people behind it are in it together.

PURPOSE

To bring the people who eat rice closer to the people and practices that grow it.

PERSONALITY

Assured, warm, articulate, quietly proud. A good host, not a salesperson.

VALUES

Togetherness (sangat) · Care in the field · Craft and consistency · Honesty: we say only what we can stand behind.

AUDIENCE

Affluent urban Indian households, premium grocery and gourmet shoppers, people who notice design.

MUST NEVER READ AS

An NGO or charity product, a rustic organic label, an ornate heritage cliché, a mass-market staple.

THE NAME

Sangat (संगत): company, keeping good company, a gathering. **Sanjhi** (साँझी): shared. **Sunehra** (सुनहरा): golden. **Kal** (कल): tomorrow.

Sanjhi Soch, Sunehra Kal

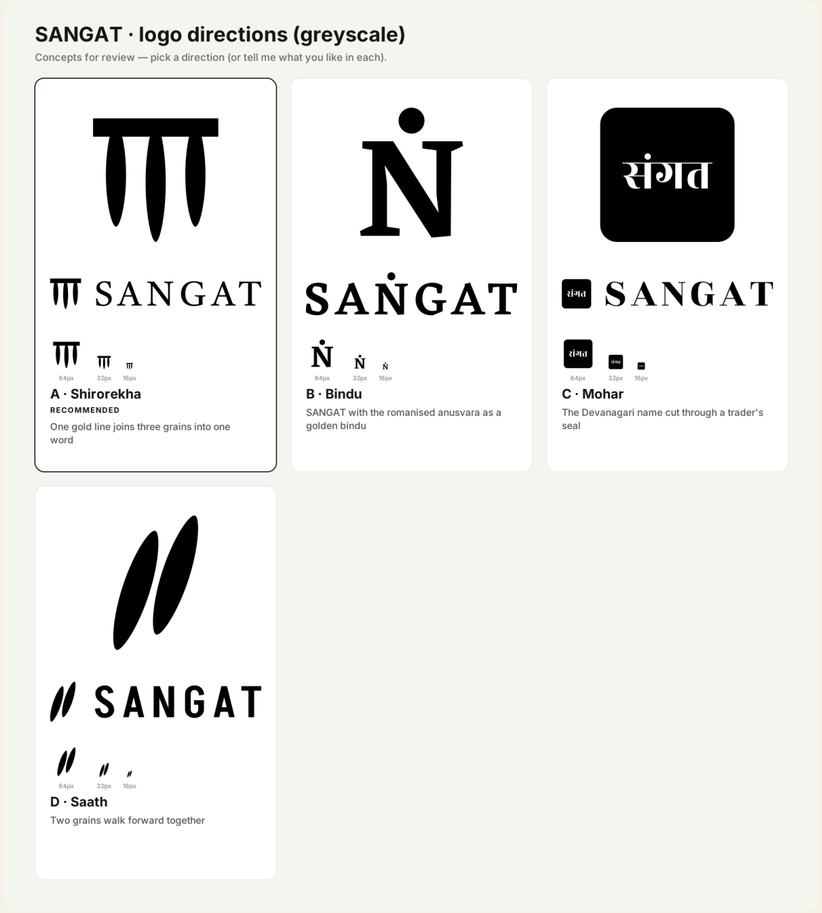

साँझी सोच, सुनहरा कल

ON THE SHELF

The category shouts in maroon, red, yellow and gold frames, with monuments and crowns, or in leaf green and kraft. Sangat takes the open space: near-black forest, ivory, one restrained gold line, Indian-designed type.

Four ideas, judged in grey first.

A Shirorekha: three grains held by one line. B Bindu: the anusvara dot as a golden seed. C Mohar: a Devanagari seal. D Saath: two grains moving forward together.

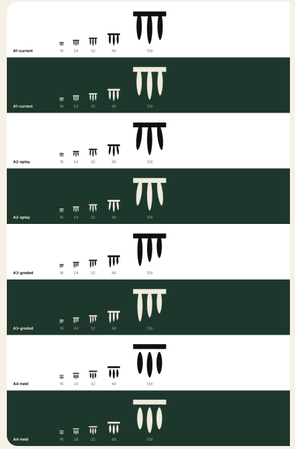

Shirorekha: the mark the system hangs from.

Scores are design judgement out of 10. A wins on relevance, versatility and reproducibility; B is the runner-up and gives the system its bindu; C gives it the chatai weave.

REFINEMENT

Round 1: three grains fused to the bar read as an inverted "Ш". Whole grains now hang 7 units below the line, like a toran: the letter reading is gone at every size.

Round 2: the symbol out-weighed the capitals. Grains and line were slimmed to the wordmark's stem weight, and a separate small cut was drawn for 16–24 px.

Forest, ivory and one golden line.

CMYK values are uncalibrated starting builds for coated stock. Spot colours (Pantone) are matched by the printer from drawdowns, and the gold line is hot foil wherever the budget allows.

Tested at 16 px, on packs and in one colour.

Every layout ships as editable SVG and transparent 2400 px PNG in colour, reversed, black, white, forest and gold. The favicon and app icon use the small cut.

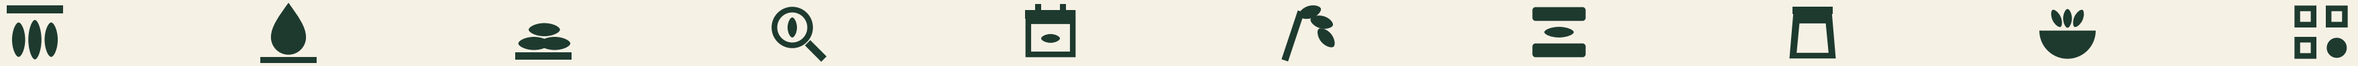

One grain, one line, one point, one weave.

The hanging line holds content; the bindu marks the story and the QR code only; the chatai weave is woven from basmati grains, cut like a Sanjhi stencil; icons are drawn from the same grain.

The logo becomes the pack.

1 kg stand-up pouch, back · front · bottom gusset. The gold line runs edge to edge as hot foil and the three grains hang from it in spot UV. Magenta: assumed trim and zip; blue: safe area. Placeholders are labelled.

The real rice is the illustration.

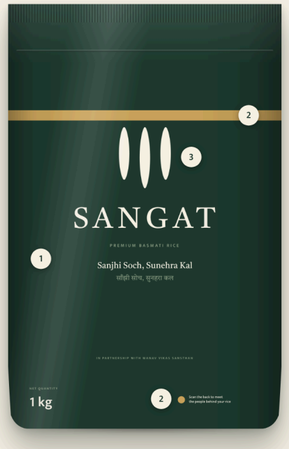

5 kg handle bag, side · front · side · back. The three grains are clear windows onto the rice; the forest base carries quantity and the partnership line. Handle die-cut and gusset sizes are assumed until dielines arrive.

Felt before it is read.

Both variations at 1 kg and 5 kg, and the finishes that carry the premium: soft-touch matte, one hot foil, spot UV grains, blind-debossed weave, clear windows. Visualisations, not print proofs.

PACKAGING · FINISHES

Felt before it is read.

1. **Soft-touch matte laminate**
   Whole pouch. Lets the forest read deep and calm, not glossy.
2. **Hot-foil gold**
   The hanging line and the bindu only. One foil, never on type below 8 pt.
3. **Spot UV (raised gloss)**
   The three grains on V1: catches light like polished rice on matte.
4. **Blind deboss**
   The chatai weave on gussets and side panels: felt, not shouted.
5. **Clear window (V2)**
   The three grains cut as windows; the real rice is the illustration.

Finishes are a specification intent. Foil, UV and deboss registration, laminate and window film must be confirmed with the converter on press proofs.

Quiet in a loud aisle.

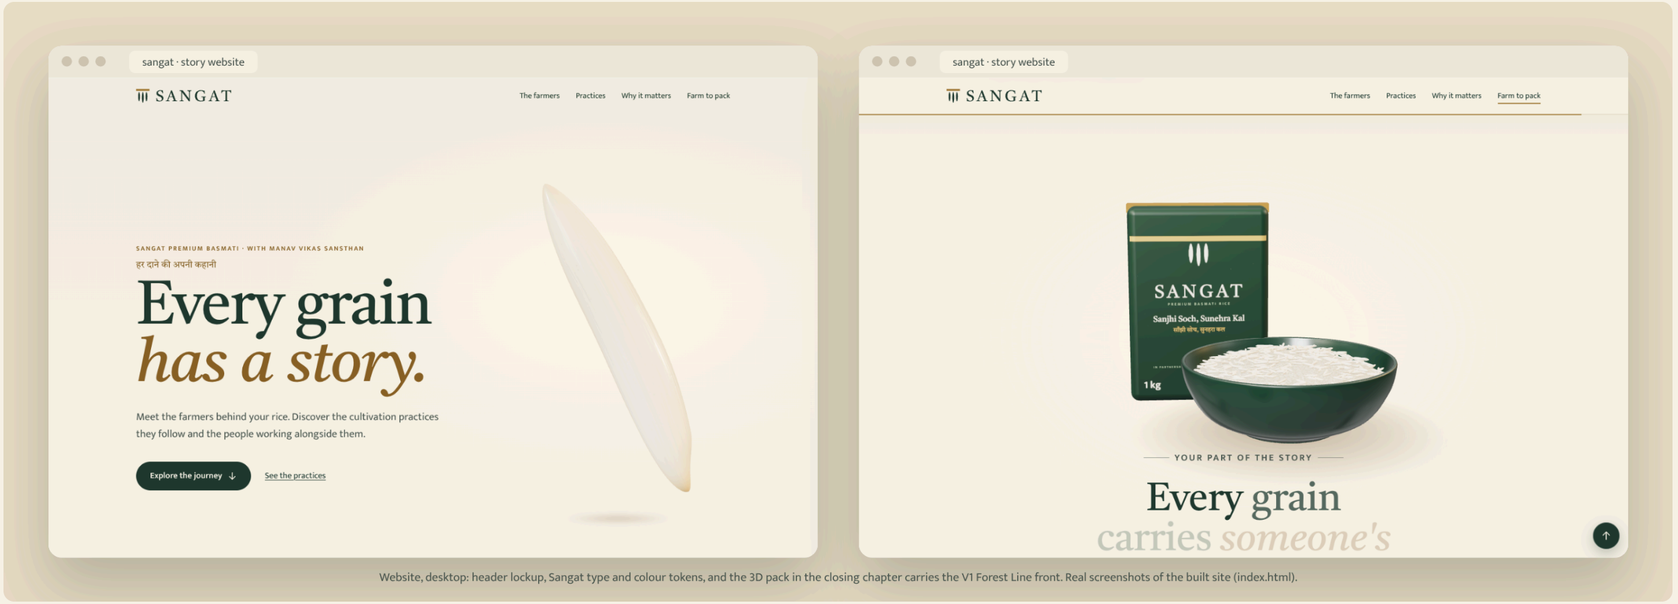

Among the category's common colours (shown as unbranded blocks, not real products), the forest-and-ivory facings with one gold line are the calmest and the most visible.

Shelf test, visualisation only. Other packs are unbranded colour blocks in the category's common colours (maroon, red, yellow, purple, kraft, leaf green), not real products.

The identity, carried by the 3D grain.

Header lockup at 26 px (22 px on mobile), Tiro and Mukta self-hosted, tokens in site.css, the gold progress line under the header, and the 3D pack wearing the V1 front.

Website, desktop: header lockup, Sangat type and colour tokens, and the 3D pack in the closing chapter carries the V1 Forest Line front. Real screenshots of the built site (index.html).

BUTTONS

Pill, Sangat Forest with ivory text; secondary as text link with a 1 px underline. Focus ring: 3 px Sunehra Gold.

SECTION GROUNDS

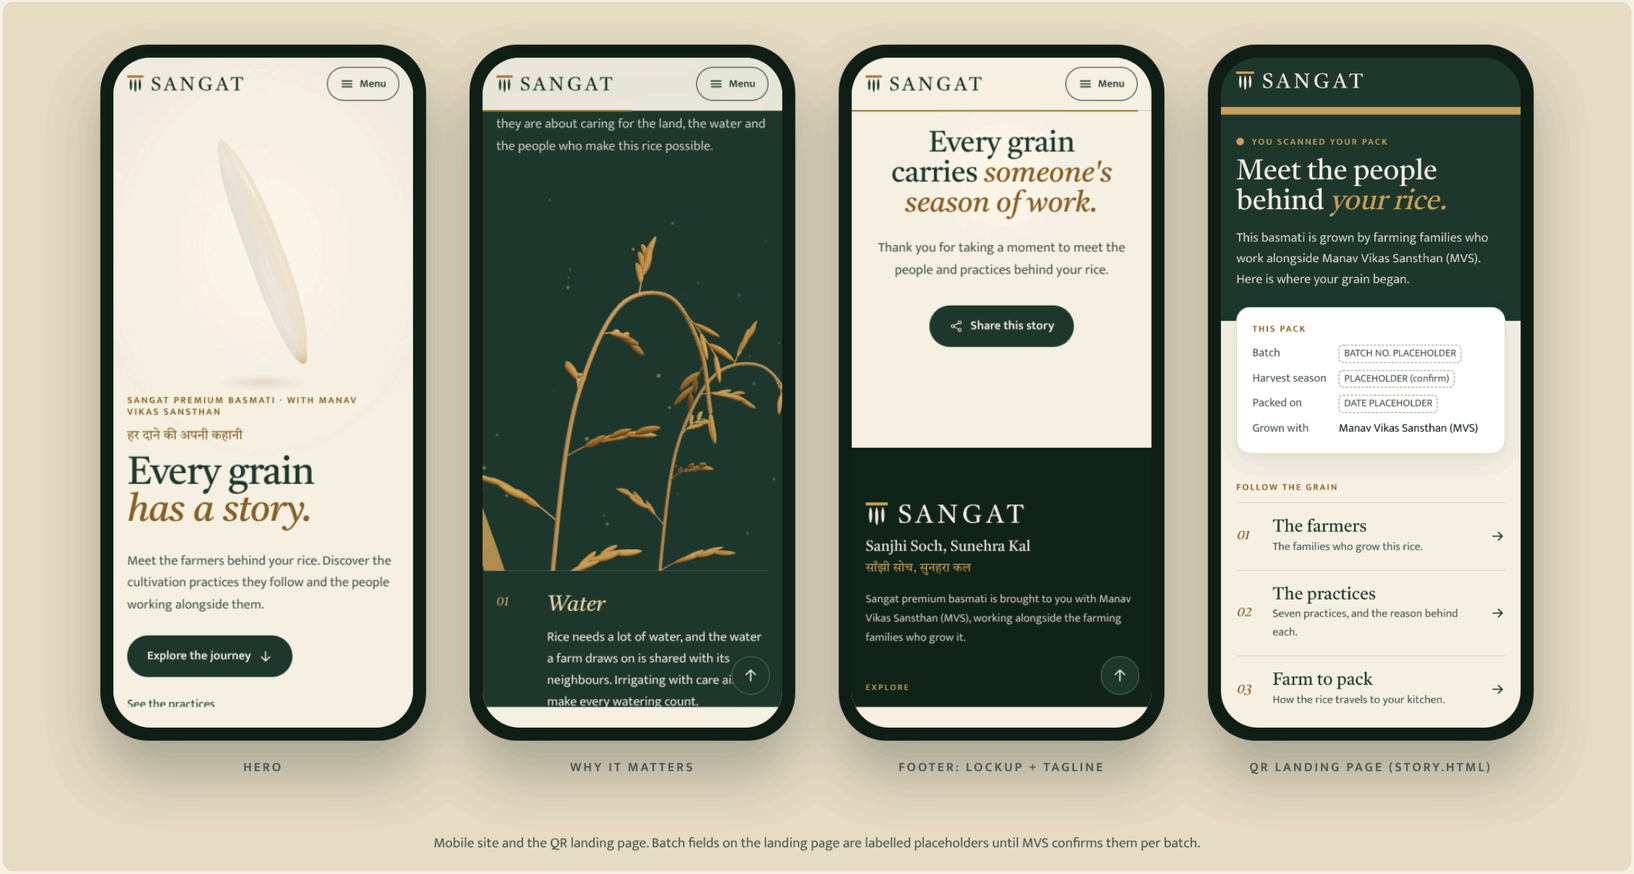

Ivory for reading, Husk Sand for cards, Forest and Night Forest for the "why" chapter and the footer. Gold never fills a section.

TYPE ON SCREEN

Tiro 400 for headings (italic for the emphasised half), Mukta 400/600 for text and labels; labels in caps at +0.16 em.

From the back of the pack to the people.

The QR code on every pack opens story.html: the batch (placeholders until MVS confirms each batch) and three routes into the story. The bindu marks the QR on pack and screen.

Mobile site and the QR landing page. Batch fields on the landing page are labelled placeholders until MVS confirms them per batch.

Two inks and a little gold.

Business card, A4 letterhead and compliments slip. All names and contact details are placeholders.

Recognisable in any single ink.

Post, story and avatar on the brand grounds; the mark in black, white, ivory on forest, forest only, hot foil, blind deboss and as a stamp on a jute sack.

What is real, and what is still a placeholder.

This system is complete as design. These items need people, suppliers or regulators before production.

CONFIRM WITH MVS

- Every product fact: grain length, ageing, origin, variety
- Batch data for the QR page
- Farmer names, photos and quotes, only with consent
- Any certification or impact claim: none is made here

SUPPLIERS AND REGULATORS

- Converter dielines for 1 kg and 5 kg (sizes here are assumed)
- FSSAI labelling review: veg mark, licence, MRP, net quantity, nutrition
- Barcode (GS1 India) and QR URL
- Pantone drawdowns, foil and UV registration on press proofs

PROTECT THE BRAND

- Trademark search and filing for SANGAT and the mark (not done here)
- Photography shoot to the direction in system/photography.md
- Fonts are SIL OFL 1.1: free for print, web and the outlined logo
